

High-performance chemical and mineral specialties. Since 1894.

A glass of water with bubbles on the left and several white, round tablets on the right, arranged in a row. A red circle is overlaid on the tablets.

**Nutrition
Minerals**
Product Range

- High purity grades
- Proprietary specifications and quality assurance
- Comprehensive documentation
- Dedicated team across Europe
- Long-term partnerships with qualified manufacturers
- Highly qualified technical and commercial support
- Flexibility in procurement to meet individual volumes and packaging requirements
- Established HACCP concept

Product Applications

Our minerals can be used in coated and effervescent tablets, capsules, ready-to-drink sachets, liquid applications and more. They meet the standard requirements of pharmacopeias, European regulations and food laws, and are available in different grades, particle size distributions and bulk densities; from light to heavy powders, directly compressible and free-flowing granules.

Metal	Salt	Grade	Suitability		Dosage forms		Other properties
			Food	Pharma	Powder	Gran.	
Magnesium	oxide	MO	• (E530)	• (EP, API)	•	•	Light, heavy
	carbonate	MC	• (E504 (iii))	• (EP, USP)	•	•	Light, heavy
	hydroxide	MH	• (E528)	• (EP, USP, API)	•	•	Light, heavy
	phosphate	TMP		• (USP)	•		
	chloride	MCL	• (E511)		•		
	ascorbate		•		•		Blend, hydrate fully reacted
	bisglycinate		•		•		Fully reacted, buffered
	citrate	MCi	•	• (EP, USP)	•	•	Hydrate, anhydrous
	gluconate	MGL	•	• (EP, USP)	•		
	glycerophosphate			• (EP)	•	•	
	lactate	ML	• (FCC)	• (EP)	•		Hydrate
	malate		•			•	
	pidolate		•		•		
	stearate	MSt	• (E470b)	• (EP)	•		Palm oil, palm oil free, vegetable
	succinate		•		•		
	taurinate		•		•		

Process

Certified according to ISO 9001. Products from processes certified according to ISO 9001, ISO 22000, GMP, IFS or BRC available on request.

Purity

Optional: EP, USP, JP, BP, FCC, NF or E number.

Packaging

Bags, drums, cartons and big bags (packaging according to special requirements available on request).

	caprylate		•		•	•	
Selenium	methionine		•		•		

Further organic salts and chelates are available upon request.

We offer customised and application-based fully reacted or buffered chelates and **individual blends of mineral salts**.

Contact us with details of your project and we will find the most suitable grade to your requirements.
